

Data Sheet Accessory Code: **CB75-B1**

Accessory Description: **Choice 75 Base Unit 750mm High**

General Images of the Product Range Features

Choice 75 Base Unit 750mm High

Product Code

CB75-B1

The "Choice" range of products and accessories allows the user to support a tablet computer, laptop, monitor and touch screen monitor, (the device) at the correct ergonomic height for sitting or standing. By allowing the device to be supported at different angles "Choice" also facilitates direct data input and or viewing preferences.

This cost effective solution offers simple adjustment that automatically locks in place at the desired height, or viewing angle, if the device has a protective cover this can remain in place.
