768mm overall height

General Images of the Product Range Features

Choice 75 Perspex Fluorescent Privacy Screen Lava Orange 768mm overall height

Product Code

CP75-PLO

The "Choice" range of products and accessories allows the user to support a tablet computer, laptop, monitor and touch screen monitor, (the device) at the correct ergonomic height for sitting or standing. By allowing the device to be supported at different angles "Choice" also facilitates direct data input and or viewing preferences.

This cost effective solution offers simple adjustment that automatically locks in place at the desired height, or viewing angle, if the device has a protective cover this can remain in place.
